

## **BELLA FABRIC**

This miracle fabric, a microfiber velvet, is the answer to many upholstery situations. Ideal for those with children, dogs, cats or partners with messy habits. A favorite of the hospitality industry for it's resistance to any stain, whether it be paint, blood, red wine, oil, tar, grease, pet hair and dander, which are easily removed with minimal effort.

Unlike most fabrics, this material will always maintain it's shape, size and color. In other words, it will not sag or 'grow' with years of use.

You really won't believe how well this fabric wears until you try it...which is to say, it doesn't wear at all!

Upon request, I can send you a sample of Bella Fabric to abuse, stain it, stretch it, let Fluffy claw at it...after 20 years I have yet to receive a complaint about any of it's wonderful qualities.
